

Smart Care

Germicidal UV-C lighting

With this Lite Bulb Moments Smart Care quality UV-C bulb you can reduce viruses, bacteria and mold in smaller rooms up to 20 m². You can control your LED socket light via our Lite app on your phone and you can turn on and off the UV-C bulb via the app worldwide. This product works in conjunction with the included LED socket and should always be used together, to avoid eye and skin damages. All technology is in the product and it is easy to install.
